BYOTA - Back Yards on The Air 25 April

The New Zealand Amateur Radio Transmitters (NZART) report that with the extension of Level 4 to 27 April here in New Zealand and back by popular demand (yes seriously, people have been e-mailing me), another BYOTA will be held on Saturday 25 April. As it is Anzac Day it will run from 13:00 to 15:00 NZST (01:00 – 03:00 UTC) to allow our VK cousins to join after their commemorations, whatever form they take.

The event is the same as last time, i.e. set up and operate portable in your back yard. Saying that you are more than welcome to participate if you can only operate ICOS ("In comfort of Shack"). This is an activity not a contest so there is no fixed exchange and no logs to be entered.

There has been a lot of VK interest in this so look out for them on the higher bands. Some may even be using "AX" prefixes to commemorate Anzac Day (remember ZLs can similarly use "ZM").

Feel free to forward this post to your club or anyone you think maybe interested. It seems a few people didn't get the memo last time around.

Ham Radio Friedrichshafen Cancelled

As large-scale public events will remain banned in Germany until 31 August owing to the Chinese-19 crisis, the 45th Ham Radio Friedrichshafen will not take place on 26 to 28 June as planned. The 2020 event has been cancelled and Ham Radio will return on 25 to 27 June 2021. For the time being, "exhibitors will be presenting product innovations in the form of a virtual trade fair" and DARC "will be offering presentations" on the Ham Radio website http://www.hamradio-friedrichshafen.de/.
